

## DD-6

The ASTEC® branded DD-6 is a self-contained horizontal directional drilling system. The DD-6 allows contractors to utilize its compact size to operate in urban, suburban, and other hard-to-reach jobsites. The DD-6 incorporates rugged construction, a field-proven design, and mechanical fortitude that makes this machine an ideal mid-size HDD solution when facing the toughest of trenchless jobs.

### Features and Benefits

- Caterpillar C-6.6 174 HP (130 kW) Tier III Diesel Engine
- 60,000 lbs. (27 Tonnes) of Maximum Thrust/Pullback Power
- 10,000 ft-lbs. (13,558 Nm) of Maximum Rotary Torque
- Rack and Pinion (4) Pinion Drive with Adjustable Force Limiter
- Pipe Hog® Open-Top Wrench
- Triplex Drilling Fluid Pump
- Rig Mounted Hydraulic Crane with 6,000 lbs. (2,722 kg) Lift Rating
- Accomodates 315 ft. (96 m) of Working Drill Pipe
- Self-Propelled on Rubber Tracks
- 2 in. (50 mm) Fluid Course Permits up to 250 U.S. Gallons (945 L)/minute Flow
