

Designing,
Developing & Delivering Valu(v)es

Shalimar

The Legacy of Values...

Shalimar Valves Pvt. Ltd. has been consistently designing, developing and delivering innovative and high quality products for more than three decades. We have been catering to a diverse set of industries - ranging from Oil and Gas to Petrochemicals, Power, Alumina and Paper. Moreover, we have **indigenously developed more than 50 varieties of valves** thus earning a reputation for technical excellence in the valve industry.

Our research in valves and valve technology is primarily aimed at catering to the varied and customized requirements of the end-user industries and integrating it with our in-house pool of knowledge and experience gained over the last 40 years.

With respect to the customer's preference for having a **"one-stop-shop"**, we have continually worked on enhancing our product profile and are now in a proud position to have **pioneered more than 1500 valve designs**.

Our continuous investment in research and development has now placed us as the valve manufacturer with a myriad of international industrial codes including **API, CE, DIN, ISO, ANSI, BS, DIN, MESC**.

At Shalimar we believe that **'Customer satisfaction comes first'** hence we go a long way in ensuring that all our products **undergo rigorous assessments** so that we can provide the customer with services of exceptional quality.

Our motto is:

To continue to build and sustain a reputation in the field of industrial valves by providing products proven in terms of Perfection, Precision and Innovative product design.
